- Acoustic and thermal comfort
- Multitude of customized printing options
- Possibility of 3D printing
- Anti-allergenic product
- Limitless special effects due to backlit ceilings

#1 distributor in Canada

Having executed **more than 5000 installations** so far, INF Concept is proud to be a member of one of the biggest distribution centers in Canada, which places us among the biggest network of certified stretched ceiling installers in Canada.

The superior quality of our products combined with the size of the network allows us to offer our clients **the best quality stretched ceilings at the most affordable price!**

What is a stretched ceiling?

Stretched ceiling is comprised of 3 main components:

- the profiles
- the harpoon
- the PVC membrane

You must install profiles around the perimeter of the room to then be able to hang the harpoon which is welded onto the PVC membrane. The distance between the original ceiling and the PVC membrane after installation will be approximately an inch.

Installation process:

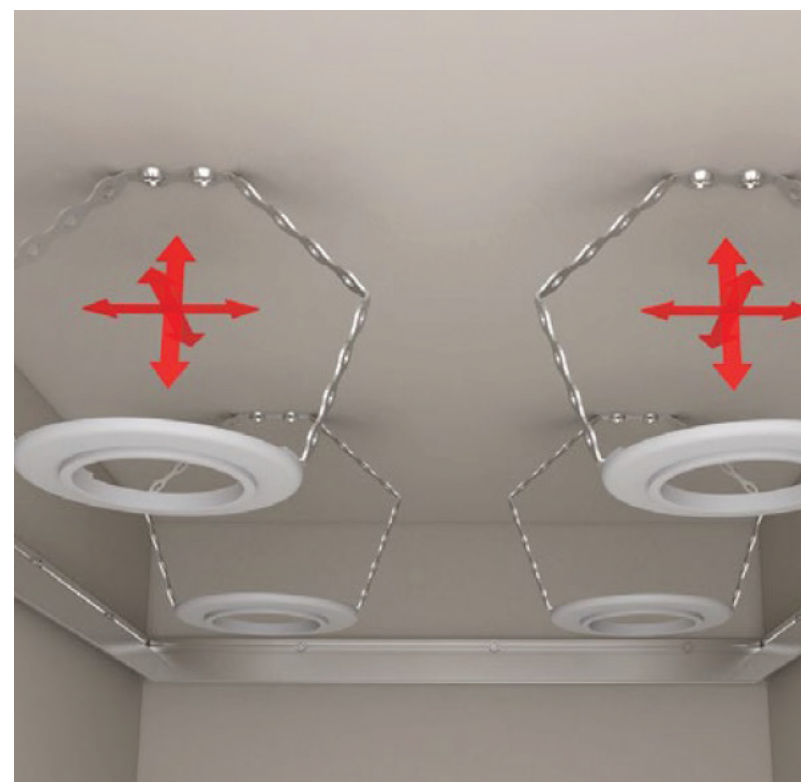

1. Measurements of the room are taken
2. Installation of profiles around the perimeter of the room
3. Preparation and installation of the adjustable system
4. Heating of the room with a heater to around 45°C to be able to stretch and manipulate the canvas
5. Hang the canvas to the profiles using “harpoon” that have been welded to the membrane
6. Once well installed the ceiling will be stretched thus creating a smooth and flawless surface

Membrane:

- Comes in more than 120 colors
- Comes in many textures: lacquered, mat, satin, translucent, printed, backlit, acoustic, and 3D
- Microperforated (acoustic)

Accessories and insertions:

- Wide variety of profile choices
- Recessed lighting possibilities
- Ventilation vents
- Sprinkler system
- Smoke detector
- Speakers
- Fiber optics
- LED lighting system
- “KEYLIGHT” lighting system

Covering of furniture

Cleanliness and protection of the client’s space is important to us. Therefore, whenever we install on a concrete surface, we offer our clients the option of covering their furniture.

INF Concept’s quality teamwork and professionalism are the main reasons for its success.

Stretched ceiling is the quickest and most affordable way to cover a concrete or stucco finished ceiling.

- LED inserts in the tiles are available
- Durable and versatile
- Simple and quick installation
- Non-combustible, fire-resistant and will not discolor
- Available in different standard sizes:
2 x 2, 2 x 4 et 4 x 4
- Possibility of using the old structural system;
- Possibility of inserting accessories in the tiles: light fixtures, recessed lights, sprinklers etc.
- Will not stain after water damage
- 5-year warranty
- Made in Quebec.

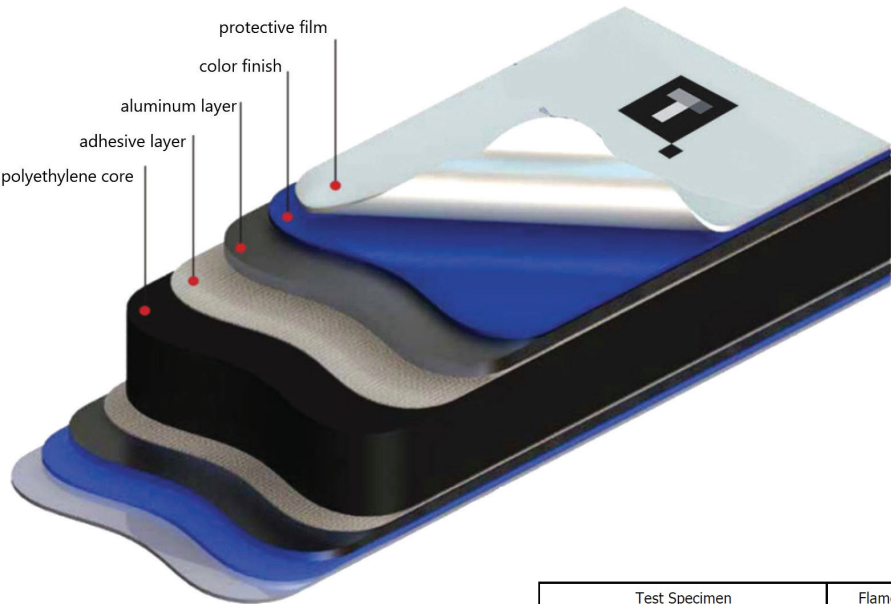

Aesthetic advantages:

- Improve the style and prestige of your decor by enhancing its aesthetics
- Easy to cut
- Create an effect of height for an unmatched atmosphere
 - More than 20 colour choices
 - Reusable for different installations
 - Printing on the tiles is an option.

Product composition:

Test Specimen	Flame Spread Index	Smoke Developed Index
"Class B1 Fireproof ACP"	0	0

Available with 0/0 properties

Acoustic effects

Although the reflective properties remain, the microperforated TKarra tiles offer **surprisingly strong acoustic benefits**. Indeed, the installation of a ceiling comprised of a mix of **25% microperforated TKarra tiles** will absorb the reverberations of a room by letting them pass through the lacquer finish to be captured in the superior membrane or in the depths of the ceiling void. The models can vary according to their application and can be comprised of perforations that are approximately 1-3mm apart.

Comes in more than 20 colors:

			
Silver 9006	Silver Mirror	Ultra White	Platinum White 9016
			
Jet Black 9005	Brushed Aluminium	Brushed Copper	Light Ivory 1015
			
Marine Blue 5002	Blue 5022	Brushed Gold	Brushed Copper Gold
			
Green 6005	Traffic Green 6024	Traffic Yellow 1023	Gold Mirror
			
Brushed Black	Orange 2004	Traffic Red 3020	Burgundy Red 3004
			
Traffic Grey 7042	Antracite Grey 7016	Chocolate 8011	

Three finish options: Lacquered • Mat • Metallic • Faux finish (wood, etc.)
